SUMMARY

Frontend developer with approximately 4 years of experience delivering enterprise web applications across **banking, software asset management, healthcare, retail** and **transportation.** Strong expertise in **Angular**, **TypeScript, RxJS** and **API integration**, with experience independently owning frontend delivery from requirements and **Figma designs** through production releases. Skilled in building reusable components, managing application state and implementing complex dashboard workflows. Collaborates closely with backend engineers, QA and product teams to deliver maintainable applications and resolve production issues.

EXPERIENCE

Full Stack Web Developer 11/2022 – 10/2026

Advanta Innovations

• Owned frontend delivery across enterprise client projects in **banking, software asset management, healthcare** and **transportation**, from requirements and Figma designs through API integration and release support.

• Built responsive Angular applications using **TypeScript, RxJS, Angular Material** and **SCSS**, developing reusable components for dashboards, forms, dialogs and data tables.

• Delivered **health-assessment request flows** and **publisher-consolidation interfaces** for **Softchoice Sam+ Hub**, enabling customers to request assessments through the Optimize tab.

• Implemented software-monitoring features for **publisher adoption, installation status** and **product insights,** including a sortable Top 10 AI products modal and marketplace featured-product interfaces.

• Developed student management dashboards with **enrollment, status and balance reporting**; built reusable date-range and year-picker components with filtering, sorting and pagination.

• Extended student reporting APIs using **Node.js, Express.js and Sequelize** to support year, month and status filters, and resolved timezone issues affecting report date ranges.

• Delivered an Angular banking dashboard, a **barcode-scanning application** for pharmacy warehouse operations and **a GPS fleet-tracking interface** for transportation workflows.

• Collaborated with **backend engineers, QA and product stakeholder**s to clarify API contracts, investigate defects and validate fixes; reviewed pull requests and supported release workflows using **Azure DevOps and Jenkins**.

EDUCATION

MCA - Full Stack Development 01/2026 – Present

Lovely Professional University

BCA - Computer Application 2022 – 2025 | Dehradun

Graphic Era, Deemed To Be University

SKILLS

Languages

TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS

State Management & Angular Features

RxJS, NgRx, Angular Signals, standalone components, lazy loading, route guards, HTTP interceptors

Testing & Collaboration

Jasmin Karma, debugging, regression defect resolution, pull request reviews, Figma, Agile/Scrum

Frontend

Angular 14/16, Angular Material, Bootstrap, responsive design, reusable component development

API & Backend

REST API integration, GraphQL integration, Node.js, Sequelize, SQL

Development & Delivery

Git, GitLab, Azure Repos, Azure DevOps, Jenkins, CI/CD, Jira
